## Experience

### Current/Active Security Clearance - Secret

Northrop Grumman – Pathways Cybersecurity Analyst – June 2023-Present

- Intern Cybersecurity Analyst – June 2022 to June 2023

- Perform assessments of systems and networks, identify where those systems and networks deviate from policy, and document findings.
- Establish strict program control processes to ensure mitigation of risks to support obtaining certification and accreditation of systems.
- Assist in the implementation of the required government policy, make recommendations on process tailoring, and collaborate with stakeholders to reach secure outcomes.
- Perform analyses to validate established security requirements and to recommend additional security requirements and safeguards.
- Document the results of Certification and Accreditation (C&A) activities, prepare System Security Plans (SSP), and update the Plan of Actions and Milestones (POA&M).
- Periodically conduct a complete review of each system's audits and monitor corrective actions until all actions are closed.
- Review software and hardware requests to ensure they meet requirements to be added to the baseline.
